

## PassPorter® Deluxe Tips & Tricks

### Carry Only What You Need

Thanks to the ability to add and remove pages and PassPockets, there's no need to carry anything you don't need. A good place to lighten your load is the Staying in Style chapter—keep only your resort's pages.

### Remove PassPockets While Touring

The Deluxe Binder is a bit larger than our regular PassPorter, and may seem too large to carry around the parks everyday. If you don't want to tote it around, just remove your daily PassPocket and any pertinent pages, tuck them in your bag, and off you go! You can put the PassPocket back in your binder when you return at night.

### Reorganize Your Pages

Put the pages you use most, such as worksheets or your resort pages, near the front of your binder for easier access! You may also want to move your daily PassPockets to the front on the corresponding day of your vacation if you're carrying it around with you.

### Add Tabs to Important Sections

You can add tabs in two ways: The first way, and most flexible, is page flags (from the same folks who make sticky notes). Just stick a flag on any page you want to mark. The second method, which is more durable, is adhesive tabs designed for file folders—use the colored plastic ones for better visibility. You can get both page flags and adhesive tabs at your local office supply store.

### Get Our Free Add-in Pages

We make our book updates available in a downloadable, printable format for your binder. We also make new worksheets, tip sheets, and fun sheets periodically—check the [Deluxe Downloads Library](#)!

### Add Your Own Pages

No need to bulk up your PassPockets if you've got pages that can be punched and placed in the rings. You can use our template file to help you trim and punch your pages. To punch, you'll just need a handheld, manual one-hole punch which you can buy from an office supply store for about one buck.

## PassPorter® Deluxe Tips & Tricks (continued)

### Use Your PassPorter For Other Trips

First, you can re-use your PassPorter Deluxe Binder for future trips to Walt Disney World—just purchase a [Refill Kit](#) and you're all set! Second, you can use your PassPorter Binder for trips to places other than Walt Disney World. The [Extra PassPockets](#) work great for other family vacations, weekend getaways, and business trips... anytime when you need to organize your travel.

### Planning With Your PassPorter Deluxe (changes to Page 4 of PassPorter 2000)

Your PassPorter Deluxe is most useful when you keep it handy before and during your vacation. If you decide to carry it with you, PassPorter Deluxe fits compactly into backpacks and shoulder bags. Or, do as we do and tuck your PassPorter into a **waist pack** (you'll need one at least 7.5" x 10" (or 20 cm x 27 cm). Check our [Web site](#) (detailed on page 253) for details on waist packs that fit your Deluxe edition.

PassPorter Deluxe loves to go on rides with you, but try to **keep it dry** on Splash Mountain and Kali River Rapids. The vinyl binder offers great protection, and a simple resealable plastic bag (gallon size) also helps.

Personalize your PassPorter Deluxe! Download our **Deluxe nameplate** (available in the [Deluxe Downloads library](#)), print it out, fill in your **personal information**, and place it in the clear window pocket of your binder. Don't forget to write your name under the front cover flap and jot down **important phone numbers, reminders, and addresses** under the back cover flap.

Your **Deluxe binder** protects your plans and papers, and you can open it to lay flat on your desk or lap. We designed the binder with rings large enough to hold the covers, text, and pockets, but small enough to be portable, too. You'll notice your binder gets full quickly, and we strongly recommend you remove those pages and pockets you don't need and store them somewhere safe in the event you want to use them again.
